

JoikuSpot Light

Contributed by NokiaVista Support

It turns your S60 Smartphone to a Wi-Fi HotSpot, enabling you to share your Smartphones 3G internet connection over WLAN to any device. With JoikuSpot you carry the Wi-Fi internet access in your pocket where-ever you are. JoikuSpot Light 3.0 supports Arabic, Turkish, Chinese HK, Chinese PRC, Chinese TW, Polish, Korean, Indonesian, Hebrew, Ukrainian, Slovenian, English, English US, French, French CA, German, Italian, Portuguese, Portuguese BR, Russian, Spanish, Spanish AM, Dutch, Danish, Norwegian, Finnish, Swedish and Japanese. The language is automatically selected to be same as the phone's language.

JoikuSpot software is installed directly to the phone. When switched on, laptops and iPods can establish instant Wifi connection using phone's 3G internet connection.

Multiple devices can connect to JoikuSpot in parallel and seamlessly share the same 3G internet connection. Download it free.
